

## IMPORTANT COVID-19 NOTICE

If you or anyone living in your apartment have COVID, are experiencing COVID symptoms or are under quarantine, your home will not be serviced. If service was already scheduled, please contact management ASAP to inform them that you are not feeling well and to reschedule your service.

## Preparation for German Roach Treatment

It is not necessary vacate your apartment for this service. At the time of treatment, all pets, including dogs, cats, birds, etc. must be safely and securely crated or removed from the unit. Products used for this treatment are of low toxicity and are placed inconspicuously and out of reach of children and pets. If your apartment is alarmed, please disable it and notify your management that this has been done. Your cooperation and access to your home is necessary in order for this treatment to be effective. If your apartment is not treated you may begin to see increased pest activity.

### Tenant Preparation

**If you are experiencing cockroach activity**, please prepare the following:

- Please empty the cabinets in the kitchen and bathroom and place contents on a table or other location. Please do not place items on the kitchen floor or countertops.
- Please remove the drawers in the kitchen and place the drawers on a table or other location. Please do not place the drawers on the kitchen floor or countertops.
- Clear all counter top surfaces
- Pull out the fridge and stove, if possible

### After Treatment Information
